

CONTRACT MANUFACTURING

Expert Solutions
For Your Projects

CONTRACT MANUFACTURING

With over 40 years of experience, JET PRESS serves many customers, from small businesses to large international corporations.

We have manufactured more than 1 billion parts, meeting high-volume international demands and our experience and advanced manufacturing capabilities enable us to provide bespoke solutions tailored to each customer's needs.

Our flexible approach to contract manufacturing accommodates varying demands in quantities, time scales and product specifications.

At JET PRESS we are dedicated to building lasting relationships with our clients by providing comprehensive end-to-end services. These services include consignment stock holding, warehousing, national and international logistics solutions, ensuring we fully support the operational and strategic goals of every business partner.

Our commitment to quality is paramount. With a 98% on-time delivery success rate our dedicated team ensures quality assurance across all aspects of our service.

Key Advantages of Contract Manufacturing

- Cost Efficiency
- Access to Expertise and Technology
- Scalability and Flexibility
- Faster Time-to-Market
- Focus on Core Competencies
- Quality Assurance
- Risk Mitigation
- Resource Optimisation

Why choose JET PRESS for Contract Manufacturing?

- Bespoke Process
- Decades of Experience
- Quality and Sustainability
- Logistics and Supply Chain Management

Plastic injection moulding and metal manufacturing are essential in modern production, allowing the creation of complex and durable components with high precision and efficiency. At JET PRESS, we leverage over 40 years of expertise in these fields to deliver high-quality products tailored to various industries, including automotive, aerospace, medical, military, furniture and toys. Our state-of-the-art UK facilities are equipped to handle projects of any scale, ensuring consistent excellence.

We specialise in both plastic injection moulding and metal fabrication, offering advanced capabilities and comprehensive services. Our expertise makes JET PRESS a trusted partner for all your manufacturing needs.

INJECTION MOULDING

- Arburg vertical and horizontal injection moulding machines
- Machine capabilities ranging from 25-200 tonnes
- Modern MRP system
- Powder-based colour mixing
- Insert moulding
- Tool trialling for high-volume production
- Full traceability and documentation available

METAL FORMING

- Coil line fed 60-tonne Chin Fong power press with load monitoring
- Multi-slide machines including RM30 builders
- Fully equipped tool maintenance and workshop
- Highly experienced machinists and in-house tool maker
- Tool trialling through to high-volume production
- Full traceability and documentation available

ASSEMBLY & KITTING

- Mixed material assembly including plastic-to-plastic, metal-to-metal and metal-to-plastic
- Automated bagging
- Machines for small to large volumes
- Multi-part kitting services into bags or boxes
- Sourcing capabilities for components if required
- Consolidation of multiple kits for multi-site dispatch

END-TO-END PARTNER

- Quality control and documentation
- Consignment stock holding
- In-group technical and design support
- Friendly customer service
- Warehousing services
- Delivery to your customers and facilities
- National and international delivery networks

FULL SCALE SERVICES

Our versatility makes us the ideal partner for businesses across various industries. With expertise in plastic injection moulding and metal manufacturing, we deliver bespoke solutions and high-precision components.

We support sectors like automotive, aerospace, medical, military, furniture and toys, accommodating diverse demands in quantities, timelines and specifications. Our comprehensive services include consignment stock holding, warehousing and logistics, fully supporting our clients' operational and strategic goals.
